

Six Steps to GETTING ON THE ROAD CHEAPLY FOR NEW DRIVERS

1 PASS YOUR DRIVING TEST

Time to throw the L plates away and take to the open road.

2 BUY YOUR FIRST CAR

Not always easy, especially if you're on a budget, but there's plenty of advice out there for first time buyers.

3 CHECK OUT THE COSTS

- **Road tax** - varies from no charge to more than £1,000.
- **Cost of parts and servicing** - certain manufacturers supply much cheaper parts than others.
- **Car insurance group** - typically, the higher the group, the higher the price of cover. Use a comparison site to get prospective quotes.

4 CONSIDER THE BENEFITS OF TELEMATICS INSURANCE

There are a number of excellent benefits of having a telematics device fitted in your car - these vary from insurer to insurer, but the most common are:

You can learn from your driving data

Your vehicle can be tracked in the event of a reported theft

You can prove, even as a new driver, that you are safe on the roads

You can benefit from cheaper car insurance

In the event of an accident the data recorded by the box could help to speed up a claim

ALWAYS READ THE SMALL PRINT

Black box insurance policies often appear cheaper than traditional cover when comparing prices, but the Ts & Cs vary greatly, so check out the small print. Look out for:

- * **Pay as You Go mileage restrictions** (you pay for a set number of miles up front and when you have used them up, you have to buy more to be able to continue driving).

- * **Curfew penalties** (certain jobs mean late or early hours, so check out if you will receive routine penalties, such as an additional charge, for driving out of set hours).

- * **Driving penalties** (such as if you break a speed limit, or exhibit negative habits).

Coverbox policies have none of the above.

5 MAKE SURE ALL YOUR CAR'S DETAILS ARE IN ORDER

6 GET IN YOUR CAR AND DRIVE

Safely of course!

Coverbox are providers of **black box insurance** which offers plenty of benefits with none of the drawbacks. Our cheap car insurance policies require customers to have a telematics box fitted in their car.
